# METALLURGIA—Index to Volume XLV

Published by the Kennedy Press, Ltd., 31, King Street West, Manchester 3.

JANUARY—JUNE, 1952

	Page		Page		Page
<b>A</b>		<b>C</b>		<b>F</b>	
Allotropic Theory of Hardening.		Carbon Steel Scrap, Sorting		Fatigue and Creep Properties of	
Floris Osmond. By E. N. Simons	281-282	Tungsten Steel from	252	Two Commercial Aluminium	
Alumina Production Facilities in Jamaica, Expansion of	86-87	Castings (Horizontal, Sand), A Note on the Mechanism of Solidification of. By K. C. Adamson and J. B. Sayers	163-168	Bronzes at 500° C. By J. J. Carter, D. N. Mends and J. McKeown	273-281
Aluminium and its Alloys in 1951. By E. Elliott	75-80	Cast Iron (Ductile), The Annealing and Heat Treatment of. By C. C. Hodgson and W. Fairhurst	283-288, 296		
Aluminium and its Alloys, Progress in. By P. L. Martyn	65-69	Cast Iron (Ductile), Some Experiments with. By C. C. Hodgson and C. S. Johnson	218-224		
Aluminium as a Shipbuilding Material	121-126	Charging Borings into the Cupola, New Method of	199-200		
Aluminium Bronzes, The Creep and Fatigue Properties of Two Commercial, at 500° C. By J. J. Carter, D. N. Mends and J. McKeown	273-281	Chrome-Magnesite Refractories, Some Experiences in the Use of. By G. Reginald Bashforth	12-16		
Aluminium in Building	254-255	Cladding of Metals, The. By R. D. Weber	3-6		
Aluminium, The Coating of Steel with. By D. P. Moses and G. G. Popham	70-74, 84	Coal, Is It Too Cheap?	217		
Analytical Control (High Speed) of Light Alloys	306				
Annealing and Heat Treatment of Ductile Cast Iron. By C. C. Hodgson and W. Fairhurst	283-288, 296				
Automatic Lubricator for Rolling Mills, Wakefield Installation at Scunthorpe	301-302				
<b>B</b>					
Bell-Type Vertical Furnaces for Steel Works	130				
Blowing Reaction (Metallic Mould), A Contribution on the. By V. Kondic, G. Martin and K. Bromage	127-130				
Borings into the Cupola, New Method of Charging	199-200				
Bright Annealing Gas-fired Continuous Furnace	64				
British Industries Fair	161-162, 179-194, 202				
British Standards, New and Revised	131-132, 201-202				
Broaches, A Successful Experiment with. By W. Jubb	11				
B.T.H. Research in 1951	251-252				
Building, Aluminium in	254-255				
Buried Metals, Corrosion of. Report of Symposium	23-28				
<b>C</b>					
Coating of Steel, The, with Aluminium. By D. P. Moses and G. G. Popham	70-74, 84				
Colour Code, "Safety"	28				
Commonwealth Scientific Conference	56				
Copper and Copper Alloys. A Survey of Technical Progress during 1951. By E. Voce	16-22				
Copper-base Alloys for Use in Heat Exchanger Tubes of Gas Turbine Engines. (The Creep and Fatigue Properties of Two Commercial Aluminium Bronzes at 500° C.). By J. J. Carter, D. N. Mends and J. McKeown	273-281				
Copper, Nickel and Tin, The Influence of, on the Hot-working Properties of Mild Steel. By G. G. Foster and J. K. Gilchrist	225-230				
Core Extraction Forces Required in Pressure Die Casting. By W. M. Halliday	132-134				
Corrosion of Buried Metals, Report of Symposium	23-28				
Creep and Fatigue Properties of Two Commercial Aluminium Bronzes at 500° C. By J. J. Carter, D. N. Mends and J. McKeown	273-281				
Creep Test Research Station, Central	62-64				
Cupola, New Method of Charging Borings into the	199-200				
Cylindrical Metal Bodies, Some Observations on the Determination of Residual Stresses in, by Sach's Boring Method. By R. A. Dodd	109-114				
<b>D</b>					
Desulphurising Carbon-saturated Molten Iron with CaO-SiO <sub>2</sub> -Al <sub>2</sub> O <sub>3</sub> Slags, The Effect of Stirring on the Rate of. By C. E. Shanahan	59-61				
Die Casting (Pressure), Core Extraction Forces Required in. By W. M. Halliday	132-134				
Die Casting (Pressure) Foundry at Slough	139-140				
Ductile Cast Iron, The Annealing and Heat Treatment of. By C. C. Hodgson and W. Fairhurst	283-288, 296				
Ductile Cast Iron, Some Experiments with. By C. C. Hodgson and C. S. Johnson	218-224				
<b>E</b>					
Education (Metallurgical) in the U.S.A. By K. M. Entwistle	7-11				
Electrical Plant for the Metal Industries	38, 85-86, 137-138				
Electric Furnace Manufacture, Twenty-five Years of	303-304				
Extrusion Plant, Modern	173-177				
<b>F</b>					
Fatigue Properties of Steel, The Influence of Shot Peening on the. By W. J. Harris	299-300				
Ferrous and Non-ferrous Metals, Recent Installations for Heat-treatment Plant Developments	231-245				
Flame Hardening, Temperature Controlled	135-137				
"Founded on Fact." Council of Ironfoundry Associations	107				
Foundry Baths and Works College Opened	256-257				
Foundry (New H.D.A. Pressure Die Casting) at Slough	139-140				
Furnace (Electric) Manufacture, Twenty-five Years of	303-304				
Furnace, Gas-fired Continuous Bright Annealing	64				
Furnaces (Vertical Bell-type) for Steel Works	130				
<b>G</b>					
Gas-fired Continuous Bright Annealing Furnace	64				
Gas Turbine Performance, New Alloys Aid	162				
Gold, Silver and Jewellery Industries, Report on Research Progress, 1950-51	195				
<b>H</b>					
Hadfields' Products Displayed	22				
Hardness, The Influence of Structure on, with Special Reference to Steels. By H. A. Unckel	115-120				
Heat Treatment and Annealing of Ductile Cast Iron. By C. C. Hodgson and W. Fairhurst	283-288, 296				
Heat-treatment Plant, A Modern	297-298				
Heat-treatment Plant Development	231-254				
High-speed Analytical Control of Light Alloys	306				
High-tensile Weldable Structural Steel, Stress-strain Relationship of a. By D. W. Smith, J. G. Whitman and C. L. M. Cottrell	169-172				
Hot-working Properties of Mild Steel, The Influence of Copper, Nickel and Tin on the. By G. G. Foster and J. K. Gilchrist	225-230				
<b>I</b>					
Immersion Pyrometry in the Steel Industry. By Frances Mortimer	88-90				
Institute of Metals. A.G.M.	196-198				
Iron and Steel Institute—A.G.M.	249-250				
Iron (Ductile Cast), Some Experiments with. By C. C. Hodgson and C. S. Johnson	218-224				
<b>J</b>					
Jamaica, Expansion of Alumina Production Facilities in	86-87

Sach's Boring Method, Some Observations on the Determination of Residual Stresses in Cylindrical Metal Bodies by. By R. A. Dodd ..	109-114			<b>Trade Publications ..</b>	44, 96, 147-148, 206, 262, 312
"Safety" Colour Code ..	28				

# RECENT DEVELOPMENTS IN MATERIALS, TOOLS AND EQUIPMENT

Alkali Degreasing Plant. The Orcene Co., Ltd. ..	310
--	-----

*E. Engin*

	Page
Alumina Mortars and Pestles. The Thermal Syndicate, Ltd.	261
Bar Cropping Machine. F. J. Edwards, Ltd.	93-94
Carbon Dioxide Indicator Shandon Scientific Co.	309
Cemented Carbide, New Grade of. Metro-Cutanit, Ltd.	309
Die Lapping and Polishing Machine. Rudkin & Riley, Ltd.	309-310
Flame-cutting Machine, Improved. The British Oxygen Co., Ltd.	94
Gas Calorific Value, New Instrument for Controlling. George Kent, Ltd.	261
Hand Lever Shears. F. J. Edwards, Ltd.	310
High-precision Disappearing Filament Optical Pyrometer. Tinsley (Industrial Instruments), Ltd.	145
Improved Electrical Resistance Alloy. British Driver-Harris Co., Ltd.	146
Ingot Slicing Machine, A New. Craven Brothers (Manchester), Ltd.	93
Instron Tensile Tester Accessories (New). Instron Engineering Corporation	146
Philips' Multi-point Welding Machine, A New. Philips Electrical, Ltd.	260-261
Pneumatically-operated Motor Butterfly Valves. Fisher Governor Co., Ltd.	145-146
Rotary Draw Former. Cyril Bath Machinery Co.	42
Safe A.C. Welding Rod Holder. The General Electric Co., Ltd.	41
Synthetic Resin Core-binder, New. Aero Research, Ltd.	261
Three-roll Plate Bending Machine. The Bronx Engineering Co., Ltd.	41-42

#### LABORATORY METHODS

Absorptiometric Analytical Procedure of Particular Applicability to the Residues which result from the Chlorination of Steel. By S. Greenfield and L. E. Sparrow	263-266, 270
Air-borne Dusts, The Mass Concentration of. By P. F. Holt	156-157
Aluminium Alloys, Rapid Photometric Determination of Cobalt in, Using Nitroso-R-Salt. By W. and G. Stross	315-318
Aluminium, Determination of, in Aluminium Bronzes Conforming to Specification D.T.D. 197. By G. H. R. Gwatkin	319-321
Analytical Procedure (An Absorptiometric) of Particular Applicability to the Residues which Result from the Chlorination of Steel. By S. Greenfield and L. E. Sparrow	263-266, 270
Analytical Results, A Further Note on the Reproducibility of. By E. C. Mills and S. E. Hermon	47-48
British Industries Fair at Olympia	209-211
Centrifuge Tubes (Transparent Silica) for Micro and Semi-micro Work. By Dr. W. Stross	101
Chemical Spot Testing, The Identification of Metals and Alloys by. By C. T. Wilshaw	102-106

Chlorination of Steel, An Absorptiometric Analytical Procedure of Particular Applicability to the Residues which Result from the. By S. Greenfield and L. E. Sparrow	263, 266, 270
Cobalt Oxides, Differentiation of. By R. S. Young and H. R. Simpson	51
Cobalt, Rapid Photometric Determination of, in Aluminium Alloys Using Nitroso-R-Salt. By W. and G. Stross	315-318
Colorimetric Methods of Metallurgical Analysis, Investigations on. By G. V. L. N. Murty and N. C. Sen	53-54
Colorimetric Methods of Metallurgical Analysis, Investigations on. By G. V. L. N. Murty and S. J. Rao	212-213
Creep Testing at Temperatures up to 200° C., Equipment for. By R. J. M. Payne	322-324
Crystals (Single) of Lead, The X-ray Diffraction Study of. By Dr. Y. C. Chuang	99-101
Differentiation of Cobalt Oxides. By R. S. Young and H. R. Simpson	51
Dimethylterephthalate as a Filter Base. By P. F. Holt	156-157
Disappearing Marks, The Determination of Local Wear by the Use of	151-153
Displacement - or Strain - Actuated Electronic Trigger for High-temperature Stress-relaxation Testing and Other Purposes, The Development of a. By D. C. Herbert and D. J. Armstrong	267-270
Duboscq Type of Colorimeter, Estimation of Silicon in Steel Using the. By G. V. L. N. Murty and N. C. Sen	53-54
Duplicate Colour Standards for the Determination of Molybdenum in Alloy Steels, Details of. By G. V. L. N. Murty and S. J. Rao	212-213
Dusts (Air-borne), The Mass Concentration of. By P. F. Holt	156-157
Filter Base, The Use of Dimethylterephthalate as a. By P. F. Holt	156-157
Flow-through Electrode Tubes Suitable for Use in Routine Polarographic Analysis. By F. C. Spurr	52-53
Hardness and Micro-hardness Testing in 1951, Progress in	213-214
H.D.A. Central Laboratories Revisited	154-155, 157
Laboratory Ware, The Preparation of, in Magnesia, by a Modification of the Slip Casting Technique. By H. T. Greenaway	159-160
Lead, The X-ray Diffraction Study of Single Crystals of. By Dr. Y. C. Chuang	99-100
Magnesia Refractory Ware, The Preparation of, by a Modification of the Slip-casting Technique. By H. T. Greenaway	159-160
Micro and Semi-micro Work, Transparent Silica Centrifuge Tubes for. By Dr. W. Stross	101
Micro-hardness and Hardness Testing in 1951, Progress in	213-214
Molybdenum in Alloy Steels, Duplicate Colour Standards for the Determination of. By G. V. L. N. Murty and S. J. Rao	212-213

Nitroso-R-Salt, Rapid Photometric Determination of Cobalt in Aluminium Alloys Using. By W. and G. Stross	315-318
Photometric (Rapid) Determination of Cobalt in Aluminium Alloys Using Nitroso-R-Salt. By W. and G. Stross	315-318
Polarographic Analysis (Routine), Flow-Through Electrode Tubes for Use in. By F. C. Spurr	25-35
Powder-Speedier Quality Control Made Possible.	49-51
Printing Methods (Quantitative) for the Study of Segregation in Steel. By H. O'Neill	215-216
Quality Control, Speedier, of a Powder Made Possible	49-51
Quantitative Printing Methods for the Study of Segregation in Steel. By H. O'Neill	215-216
Releas-o-Matic Device	270
Reproducibility of Analytical Results, A Further Note on the. By E. C. Mills and S. E. Hermon	47-48
Residues which result from the Chlorination of Steel, An Absorptiometric Analytical Procedure of Particular Applicability to the. By S. Greenfield and L. E. Sparrow	263-266, 270
Segregation in Steel, Quantitative Printing Methods for the Study of. By H. O'Neill	215-216
Silicon, Estimation of, in Steel, Using the Duboscq Type of Colorimeter. By G. V. L. N. Murty and N. C. Sen	53-54
Slip Casting Technique, The Preparation of Laboratory Ware in Magnesia by a Modification of the. By H. T. Greenaway	159-160
Spot Testing (Chemical), The Identification of Metals and Alloys by. By C. T. Wilshaw	102-106
Steel, Quantitative Printing Methods for the Study of Segregation in. By H. O'Neill	215-216
Stress-Relaxation Testing at High Temperatures, The Development of a Strain - or Displacement - Actuated Electronic Trigger for. By D. C. Herbert and D. J. Armstrong	267-270
Transparent Silica Centrifuge Tubes for Micro and Semi-micro Work. By Dr. W. Stross	101
Trigger (Strain - or Displacement - Actuated Electronic), The Development of a, for High Temperature Stress-Relaxation Testing and Other Purposes. By D. C. Herbert and D. J. Armstrong	267-270
Tubes (Flow-Through Electrode) Suitable for Use in Routine Polarographic Analysis. By F. C. Spurr	52-53
Wear (Local), The Determination of, by the Use of Disappearing Marks	151-153
X-ray Diffraction Study of Single Crystals of Lead. By Dr. Y. C. Chuang	99-101
